

Pickleball Rotation

In order to balance equal playing time and promote a recreational atmosphere, please utilize the following Rules and Rotations:

Place paddles in a single line from left to right at each court. The paddles will signify who is next in line to play.

Games will be played to 11 points. Once one team scores 11 they are declared the winner and the game has completed.

When there are 6 or fewer players waiting to play, the two-on two-off policy is in effect. The winners will remain on the court and the runner-ups will retire from the court. The next two players in the queue will join the next match.

The winning team is not permitted to play more than two consecutive matches. If they win their second match, they are required to retire from the court. In this instance, the next four players in the queue will join the next match.

When there are more than 6 players waiting to play, the four-on four-off policy is in effect. Both the winners and runner-ups will retire from the court. The next four players in the queue will begin the next match.
