SOUTH KINGSTOWN, RI**

Dear Mr. Parker,

As a duly licensed professional engineer in the State of Rhode Island for over 12 years, I am well versed in the Rhode Island Department of Environmental Management Freshwater Wetland Regulations and have substantial experience applying those rules and regulations in my professional capacity. In addition, I have knowledge of the proposed project at the above-referenced site and understand the details of what is involved with the various construction elements outlined on the plans.

I hereby certify that there are no freshwater or coastal wetlands or buffers (perimeter wetlands) present on the property being subdivided and the project otherwise satisfies the requirements of the Rhode Island Department of Environmental Management Wetland Regulations.

If you require any additional information, please do not hesitate to contact me.

Sincerely,

Joshua Rosen, P.E.
