RE:

Exterior Light Fixture – Dark Sky Compliance

South Coast Dispensary

91 Pershing Ave

South Kingston, RI 02879

FZA Project Number: PR-21-00414

Dear Mr. Hughes,

The pole-mounted light fixture that is shown on the preliminary design documents and included in the photometric study is manufactured by Philips and is part of their Guardco line. The fixture is the Guardco EcoForm Gen-2. This fixture has been awarded the rating of “Dark Sky” by the International Dark-Sky Association. The International Dark-Sky Association is the authority on light pollution.

The pole-mounted fixture has also been specified with the “Internal House Side Shield” luminaire option. This option will limit and, in most cases, completely remove the light trespass to neighboring properties. Upon review of the photometric study performed by Apex Lighting, there is negligible light trespass to the neighboring properties.

Sincerely,
Michael J. Donovan, PE
Electrical Engineer
